REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The lubricating oil and concentrates for use in heavy duty diesel engines comprising an admixture of components (A)-(F) in claims 1, 8, 9 and 10 in this reissue application have been amended to include "ashless" in describing component (E), the sulfurized phenols. Although the term "ashless" is not set forth in the specification in describing the sulfurized phenols, the term is very well-known in the lubricating oil art for describing additives which do not contain any metal components. Thus, the amendment to the claims excludes substantial amounts of ashless (metal-free) sulfurized phenols, particularly the commonly used nonyl phenyl sulfide (NPS), from the lubricating oils and concentrates.

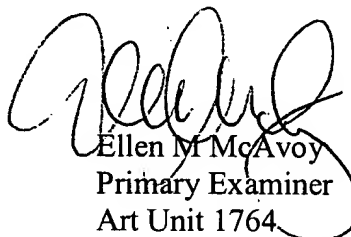

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
